Addendum IV

St. Louis College of Health Careers Catalog 2022-2023

Add the following Practical Nursing program version to begin on August 29, 2022:

Practical Nursing, Diploma

Practical Nurses perform a full range of hands-on patient care. The program objective is to develop proficiency and confidence in the basic therapeutic, rehabilitative, and preventative care of people of all ages and cultures. They provide basic bedside care by performing nursing procedures such as taking vital signs, giving injections, applying dressings, and helping patients with activities of daily living. Practical Nurses also keep accurate medical records, develop and/or implement plans of care, and perform clerical duties.

Graduates may work in a variety of entry-level settings including hospitals, nursing homes, physician's offices, home health agencies, residential care facilities, and clinics. A growing number of Licensed Practical Nurses are also providing healthcare in the home.

SLCHC graduates are eligible to apply to sit for the National Certification Licensing Examination (NCLEX) exam to become a Licensed Practical Nurse per Section 335.066, RSMo.

Program Length: Days - 60 Weeks

<u>Semester 1</u>	Hours	Credits
PS203 Human Growth & Development	30	2
MTH203 Mathematical & Dosage Calculations	45	3
BL204 Anatomy & Physiology I Theory & Lab	75	4
PS302 Critical Thinking for Nurses	45	3
 <u>Semester 2</u>		
NSG111 Nursing Fundamentals Theory	60	4
NSG111L Nursing Fundamentals Lab	90	3
NS306 Nursing Care of the Geriatric Client	45	3
BL205 Anatomy & Physiology II Theory & Lab	75	4
 <u>Semester 3</u>		
NS200 Nursing Care of Adult I	75	5
NS203P Nursing Practicum I	180	4
NS207 Nursing Care of the Mental Health Client	30	2
NS315 Nursing Care of the Child-Bearing Family	30	2
NS201 Professional Vocational Concepts	30	2
 <u>Semester 4</u>		
NS300 Nursing Care of Adult II	75	5
NS303P Nursing Practicum II	180	4
NS316 Nursing Care of the Pediatric Client	30	2
NS313 Nursing in Review	45	3

Program Totals: 1,140 hours; 55 credits

Practical Nursing, Diploma (continued)

Some courses may be offered online.

The Practical Nursing, Diploma Program is approved to be offered at the County campus.

Other Program Requirements

For practicum and/or licensure purposes, the following are required: physical examination, 2-step PPD (tuberculin skin test), Hepatitis A & B vaccination series or waiver, Tetanus, Diphtheria, Polio, Varicella, MMR Titer, Flu Shot, current CPR card, fingerprint, and drug screening.

Award Upon Completion: Diploma

Gainful Employment Disclosures can be found at <https://slchc.edu/disclosures/>

Course Descriptions

PS203

Human Growth & Development (30 hours; 2 credits)

This course is designed to help the student understand basic human life span development. By increasing knowledge of this, the student will more effectively care for culturally diverse individuals, at all age levels, and gain individual wisdom about his/her own personal journey through the human life span.

MTH203

Mathematical & Dosage Calculations (45 hours; 3 credits)

This course will discuss principles applying mathematical functions to healthcare-related applications. Content will include conversion of numbers and utilization of fundamental units of measurement. Additional knowledge gained will include understanding dosage calculation and interpreting prescriptions.

BL204

Anatomy and Physiology I Theory & Lab (75 hours; 4 credits)

This course will use theory and laboratory experiences to examine the structure and function of the human body. The focus will be placed on learning the structural and biological functioning of each body system. Pathology and disease and illness processes will be evaluated by students showing the connections between anatomy and physiology and their abnormalities

BL205

Anatomy & Physiology II Theory & Lab (75 hours; 4 credits)

This course is a continuation of Anatomy and Physiology where theory and laboratory experiences are used to examine the structure and function of the human body. The focus will be placed on learning the structural and biological functioning of each body system. Pathology and disease and illness processes will be evaluated by students showing the connections between anatomy and physiology and their abnormalities.

NSG111

Nursing Fundamentals Theory (60 hours; 4 credits)

The Fundamentals of Nursing course is designed to introduce the student to basic nursing skills and procedures, including IV therapy. Fundamentals center on the concepts and principles of nursing practice.

NSG111L

Nursing Fundamentals Lab (90 hours; 3 credits)

The Fundamentals of Nursing Lab course is designed to introduce the student to basic nursing skills and procedures, including IV therapy. Where the student practices and demonstrates psychomotor nursing skills. The student will provide safe, client-centered care for diverse cultural populations throughout the lifespan.

NS201

Personal Vocational Concepts (30 hours; 2 credits)

This course addresses the role of the Practical Nurse as a member of the healthcare team, manager, and provider of care within the nursing profession. Students examine issues in healthcare and prepare to make decisions, as graduates, in compliance with the Missouri Nurse Practice Act in order to practice as responsible nurses in the community. The student will initiate the application for the licensure process during this course.

PS301

Critical Thinking (45 hours; 3 credits)

This course is designed to facilitate the development of critical thinking and problem-solving skills in health care by requiring the student to analyze and solve conceptual and practical problems confronting the health care professional. Students will be presented with skills to have a professional image and self-management skills that consist of time management, studying, test-taking, and writing skills.

NS200**Nursing Care of Adult I
(75 hours; 5 credits)**

This course is the first of two courses that focuses on nursing practice with adults experiencing a wide range of acute and chronic alterations in health. Health promotion strategies and health care principles are explored. This course is designed to help the student understand concepts that are needed to work in a variety of settings. Concepts such as pharmacology and nutrition and how it affects the client are discussed.

NS203P**Nursing Practicum I
(180 hours; 4 credits)**

This nursing practicum is an educational experience under the supervision of a nursing faculty member. The student integrates both theoretical and practical knowledge into a unified delivery of health care. This course is designed to move the student through levels of competency from fundamental nursing skills to those needed for the nursing care of the adult.

NS207**Nursing Care of the Mental Health Client
(30 hours; 2 credits)**

This course is designed to help the student understand concepts of mental health nursing. The course content incorporates current treatment modalities, legal implications, and communication techniques in various clinical settings. The role of the nurse and the nursing process are evaluated for the care of clients with mental health disorders.

NS306**Nursing Care of the Geriatric Client
(45 hours; 3 credits)**

Nursing Care of the Geriatric Client introduces the practical nursing student to the various aspects of caring for older adults and the physiological & psychological changes and conditions that occur as one ages. Emphases are placed on the individuality of the older adult in good health and illness, increase the awareness of the resources available in the community for the older adult, and explore how the practical nurse fits into the role of gerontology.

NS300**Nursing Care of Adult II
(75 hours; 5 credits)**

This course is a continuation of Nursing Care of Adults I which focuses on nursing practice with adults experiencing a wide range of acute and chronic alterations in health. Health promotion strategies and health care principles are explored. This course is designed to help the student understand concepts that are needed to work in a variety of settings. Concepts such as pharmacology and nutrition and how it affects the client are discussed.

NS303P**Nursing Practicum II
(180 hours; 4 credits)**

This nursing practicum is an educational experience under the supervision of a nursing faculty member and/or clinical preceptor. The student integrates both theoretical and practical knowledge into a unified delivery of health care. The practicum is designed to provide the student opportunities to utilize more complex nursing skills to individuals and families across the lifespan. Included in the practicum is a period of time spent in leadership and management roles.

NS315**Nursing Care of the Child-Bearing Family
(30 hours; 2 credits)**

Maternal health/Newborn nursing is a course designed to assist the student in gaining knowledge in the health and care of women from various cultures. Emphasis is given to normal reproduction and frequently occurring biological, cultural, spiritual, and psychosocial needs of the child-bearing and child-rearing family.

NS316**Nursing Care of the Pediatric Client****(30 hours; 2 credits)**

Pediatric nursing focuses on the care of children as they grow, disease prevention, common illnesses or disease, hospitalization, and cultural differences. How these processes affect the mother, child, and other family members will be discussed.

NS313**Nursing in Review****(45 hours; 3 credits)**

This course synthesizes nursing concepts and theories necessary for entry-level practice as a practical nurse. Emphasis is placed on the individual preparation of students prior to graduation for the National Council Licensure Exam (NCLEX-PN)
